START your **PROJECT TODAY**

It's worthwhile to have as much information as possible before you begin any construction project. With that in mind, this guide is dedicated to helping you make the best decisions and understand what to expect before you get started with your project.

Before you plan the specifics of your project, begin by thinking about how you want to use the space. To help develop your ideas and bring them to life, the Belgard Rooms program offers a new approach to outdoor living design. Focusing on templated plans, Belgard Rooms is structured around how shape, color and texture work together to offer more options and make the planning process easier. Designs are categorized by Belgard Collections and home styles, along with other features, applications, regions and more.

Find your inspiration at Belgard.com/Rooms

PEACE OF MIND.

As the largest provider of hardscape products in North America, we proudly stand behind our products with a lifetime transferable limited warranty.

Belgard.com/Warranty

S FLEXIBILITY.

We offer multiple financing options to help you realize your vision.

Belgard.com/BPP

Explore all the possibilities for how you want to use the space. Start with Belgard Rooms as a template to bring

PROJECT CONSIDERATIONS

- UNDERSTAND THE STAGES OF YOUR PROJECT: Demolition, site preparation, base material installation, bedding sand installation, hardscape installation, polymeric sand installation, paver cleaning and sealing.
- HARDSCAPE PROJECT TIMELINES DEPEND **ON SEVERAL FACTORS:** Size and scale of the project, permits needed (varies by municipality), approval by community organizations (homeowner associations or architectural review boards), weather delays.
- PLAN. CONTRACT AND SCHEDULE UP FRONT: Additional features delay schedules and add to the total cost. For larger construction projects phased out over time, plan the entire design before starting, including electrical, plumbing, drainage or landscaping details.
- **BE A FRIENDLY NEIGHBOR:** Discuss with neighbors any construction phases that might be disruptive.
- CHECK PRODUCT AVAILABILITY: Confirm with your contractor that all items being installed are readily available or match your timeframe.

- **START WITH THE BACKYARD:** Build your backyard first to avoid damaging your front yard.
- CONDUCT A FINAL WALK-THROUGH: Walk through the finished project with your contractor to ensure the quality of install, confirm you have receipts for materials or labor, then register the warranty.
- CONSIDER NEXT STEPS: Plan ahead to finalize your project and enjoy it for years to come. Consider steps like landscaping and scheduling a contractor to seal the pavers.

PHASE 1: 4-6 weeks

- Consider how you will use the space
- Identify styles that work with your house and landscape
- ► Gather inspiration online
- Set a budget
- Research approval requirements for your municipality or HOA

PHASE 3: 2-12 weeks

- Installation timing will vary depending on the scope of the project
- Confirm with your contractor that the correct materials were ordered and arrived
- Communicate with your contractor throughout the project to ensure it's progressing as planned

DESIGN TIP to the start of your project.

TIMELINE

PLANNING THE PROJECT

Spring and summer are the busiest seasons for contractors. Start planning during the winter, and source your contractor weeks or even months prior

EXAMPLE : SELECTING A CONTRACTOR

PHASE 2: 2-3 weeks

- ► Ask for referrals from neighbors, friends and family, or visit Belgard.com to find an authorized contractor in your area
- Review contractor credentials, portfolio and references, then request designs or renderings of your project
- Check product availability and confirm it aligns with your timeframe
- ► Finalize contract and scheduling
- Schedule time with your contractor to design your space

AFTER INSTALLATION

PHASE 4: 6 weeks-12 months

- Conduct a final walk-through with your contractor to make sure you're satisfied with the work
- ▶ Determine a timeline to clean and seal the pavers
- Register your lifetime warranty

GET CREATIVE

Outdoor spaces are a haven for both recreation and relaxation, and a valuable asset when it's time to resell. Consider the potential of your space – what is your dream front yard or backyard?

INCREASE YOUR HOME'S VALUE

Improving the value and functionality of outdoor living is often a better ROI than interior improvements. The durability of Belgard pavers and wall products, backed by our lifetime limited transferable warranty, means your investment will stand the test of time.

COMPLEMENT YOUR HOME

With Belgard Rooms, you can create an outdoor oasis for yourself and your family, while complementing your sense of style and the architecture of your home. As the leader in outdoor living design, we provide access to the latest trends in format, shape, color and texture.

BRING THE INDOORS OUT

Craft a space that complements your daily life, encouraging more time spent outside. Whether it's a fire pit patio, pool deck, front porch or an outdoor living room and kitchen, a functional space works for both relaxation and entertaining. Technology, including heating and lighting, can help meet all your family's needs.

OUTDOOR OASIS

Determine which space will benefit your family the most – front porch or backyard – and develop your personal oasis. A well-designed outdoor space should encourage exercise, mediation and work to recharge yourself and your family.

HERITAGE Antiqued. Tumbled.

6 UNIQUE LOOKS to fit any **STYLE**

COLLECTIONS BY BELGARD®

Choose multiple elements from within a single collection for a more uniform look or mix and match for a bold look that's uniquely you.

Belgard.com/Collections

LEGACY COLLECTION Soft Edges. Split Face. Accent Pieces.

METROPOLITAN COLLECTION Smooth Finish. Straight Lines.

ENVIRONMENTAL COLLECTION Permeable Pavers.

NATURAL Slate and Worn Stone. Sculpted.

GREAT is in the DETAILS

Creating your outdoor space begins with navigating through a variety of products. Kick off your design journey by narrowing down products based on a few personal style choices.

As a rule of thumb, try to keep the number of paver styles and colors to no more than

THIS or THAT

SUBTLE CONTRAST Use a monotone color scheme with perpendicular borders.

BOLD CONTRAST Different colors, shapes, and sizes make for eye-catching design.

WORK WITH NATURE Follow the landscape and allow for nature to guide you.

MAKE NATURE WORK WITH YOU Decide where you want the natural world to break through.

GO SMOOTH Pick a smooth texture for a modern aesthetic and use color to create contrast.

MIX IT UP Add visual and tactile interest by mixing textures and colors.

LIGHT up the NIGHT

From the beginning of your planning, consider the importance of lighting. Lighting transforms a space, offering ambiance, security and functionality.

Visit Belgard.com/Lighting for more.

Return to nature in your outdoor space by incorporating it into all elements of construction and remodeling. By spending more time in nature, you and your family can experience both mental and physical health benefits.

G O V E R T I C A L

Customize and define your space with Artforms™, a revolutionary system that utilizes a large-format modular panel system. From seating and bars to water or fire features and vertical gardens, the possibilities are endless in your outdoor space.

unctionality and aesthetics in one landscape

Sleek, modern and beautiful

WITH ARTFORMS AND TANDEM MODULAR BLOCK, THINK OUTSIDE THE BOX AND CREATE INFINITE **DESIGN POSSIBILITIES WITH EASE.**

<u>**LERSATILE LANDSCAPING**</u>

Belgard's Tandem™ Modular Block provides the flexibility of interconnection, delivering a solution for a range of applications, including retaining walls, double-faced walls, seat walls, corners, curved walls and columns as well as fire and water features and vertical gardens.

Visit Belgard.com/Tandem for endless possibilities.

MARIGOLD

BRIGHTEN your SPACE Live Life in Color

For harmony in your space, pay attention to color and tone. A versatile and vibrant accent hue, such as Marigold, pairs well with neutrals to add a boost of energy to the Naturalism trend.

Signify growth, vitality and renewal through hints of green, like Terrarium, in accents and decor to help create your biophilic paradise at home.

RELIVE ^{the} DREAM

Feel inspired by the idyllic retreats of HGTV° Dream Home

6 YEARS OF INSPIRING OUTDOOR LIVING DREAMS TOGETHER

TIMELESS KITCHENS

Modern outdoor living with enduring, classic appeal.

Neutral tones in a sleek flowing design that's ideal for entertaining.

CONTEMPORARY

LIVING ROOMS

FRONT PORCH as a GATHERING SPOT

Traditionally seen as an important spot to encourage conversations and relationships among neighbors and friends, the front porch continues to be a focal point for today's homeowner. As lot sizes get smaller, the front of your home can add valuable living space and increase curb appeal.

SELECT your CONTRACTOR

Selecting the right contractor is an important decision. It's critical to build a relationship and work together as a team to create your ideal outdoor living space. The below checklist is a great starting point to determine if a contractor is the ideal fit for your project.

CHECKLIST FOR CONTRACTOR:

QUALIFICATIONS AND EXPERIENCE

Inquire about services, years of experience, specialized certifications and training from industry organizations, such as ICPI, NCMA, SRW and more.

PROOF OF INSURANCE AND BUSINESS LICENSE

Confirm the contractor can provide proof of insurance and that the business is approved with the state and/or local municipality. This includes determining if any damages to the landscape are covered or if you will need to handle.

CUSTOMER REFERENCES

Ask to see photos of past projects and any testimonials from former customers.

SUBCONTRACTED SERVICES

Determine if services outside of hardscapes. including landscaping, plumbing, irrigation and lighting are needed. Will they handle this, or do you need to?

PAYMENT TERMS AND TURNAROUND

Get a complete understanding of financing options and payment terms, as well as the estimated project start and completion dates.

SEALANTS AND MAINTENANCE

Ask if the contractor offers a program to clean and reseal pavers, ideally done every 3 to 5 years.

WORKMANSHIP GUARANTEE

Determine if the contractor is willing to guarantee workmanship a year post installation.

ACCESS NEEDS

Determine if there are access requirements. including any details that should be communicated to a neighbor, HOA or local municipality.

*All Belgard Authorized Contractors are required to have at least one team member who is ICPI certified, meaning properly trained and certified by the Interlocking Concrete Paver Institute. The team member must meet annual requirements to maintain the company's "authorized" status.

To find a Belgard Authorized Contractor or Dealer visit Belgard.com/Locator

VISUALIZE your **PROJECT**

Before breaking ground, it's important to see a design sketch, so you and the contractor are on the same page. If your contractor is a Belgard Authorized Contractor, they have exclusive access to **Belgard Design Studio**, which shows outdoor designs in photorealistic 3D images and gives you an idea of how your space will look.

Belgard Design Studio transforms photos of your space and a design sketch from your contractor into realistic imagery of your future outdoor living space, taking into account existing structures and landscaping, as well as future furniture placement and lighting.

To see samples of existing 3D designs, visit: Belgard.com/BDS

TO PHASE or not TO PHASE

BUDGET TIPS

Sometimes, it's not feasible to install your entire dream outdoor living space at once. If you need to install your project in phases over a period of months or years, discuss a phased plan with your contractor that makes the most sense from a cost and lifestyle perspective.

Make sure to develop construction plans for those future improvements upfront. That way, you can install footings or utility lines that may be needed later. This includes thinking about gas, lighting and future water features.

You can also consider financing options. By choosing a Belgard Authorized Contractor, you also have access to Belgard Preferred Payment[®] same-as-cash financing, which may allow you to take advantage of construction efficiencies and avoid having to build in phases.

Learn more about Belgard Preferred Payment at: Belgard.com/BPP

PHASE TWO

- Determine a **payment schedule** and if materials are included. Plan the project in phases to meet your budget.
- 2. Research typical project costs in your area. Ask neighbors if they have done similar projects.
- **3.** Get **multiple quotes** from several contractors.
- **4.** Determine product costs online. Look for alternative products that are similar in price for more options.
- **5.** Complex projects cost more. Understand specific construction or engineering requirements.
- **6.** Linear design and modular design both require less cutting and can be more **cost effective** and less labor intensive.
- 7. Leveling your land can be costly, so consider building down into the slope.

PROJECT **INSTALLATION**

COMMUNICATE WITH YOUR CONTRACTOR:

Understand the timeline and what potential roadblocks may come up during the process.

► TIMING IS EVERYTHING:

Consider the weather in your city and discuss the ideal timing for installation with your contractor. The more time to plan, the better.

We won't sugar coat it - hardscapes installations can be messy work. While your contractor is meticulously working through the installation to deliver a beautiful outdoor space, there are a few things you should keep in mind...

► HARDSCAPES PROJECTS TAKE TIME:

The installation is a multi-step process, including excavation and installing layers of aggregate, bedding sand, hardscapes and jointing material. Contractors aim to deliver projects in a timely manner, but each step is important to deliver a quality, final product.

► IN-PROGRESS PHOTOS WON'T BE PRETTY: We love a before and after comparison, but remember that it takes time to get from one to the other.

► THERE MAY BE MUD:

During the installation, there may be uneven grounds, dirt and mud. But don't fret. Contractors are working quickly to create a gorgeous space, and all the mess will be a distant memory.

STEP 1: DETERMINING THE DEPTH AND AREA OF TOTAL EXCAVATION AND EXCAVATING

STEP 4: ADDING BEDDING SAND

STEP 7: INSTALLING EDGE RESTRAINTS

STEP 2: LEVELING AND COMPACTING THE BASE

STEP 3: LAYING GEOTEXTILE

STEP 5: INSTALLING EZ BASE PANELS

STEP 6: INSTALLING PAVERS

STEP 8: INSTALLING TECHNISEAL JOINTING SAND

STEP 9: ENJOY!

AFTER INSTALLATION

Installation is complete! Now, there are a few tips to follow to finalize your project.

- **Schedule a final walk-through with your contractor** to make sure you're satisfied with the work.
- **Discuss options for cleaning and sealing the pavers.** Generally, it's recommended to wait about 90 days before applying a cleaner on new pavers or concrete.
- Occasionally, a white haze called "efflorescence" may appear on the surface of the pavers a few weeks or months after they've been produced. This is caused by migrating salt within the concrete and is a **natural condition that may occur** in all cement based products. It doesn't affect the materials' integrity and will typically correct itself with time and exposure to elements.
- ▶ If you intend to seal your pavers and there is some efflorescence visible, **apply a cleaner first** to ensure the efflorescence doesn't become trapped beneath the sealer.
- Before sealing, **prep the surface** by removing dirt, stains and debris and then let the surface dry.
- ▶ Apply sealers the day after the pavers have been cleaned. After applying, let the surface cure for 24 – 72 hours.

Learn more about Techniseal's premium quality cleaners and sealers at: Techniseal.com/Pavercare.

PROTECTING your **INVESTMENT**

Belgard's manufacturing processes are world-class, using only quality materials to produce hardscapes that resist breaking and fading and will provide lasting beauty for your home. We proudly stand behind our products with a lifetime transferable limited warranty. You can relax knowing that once your Belgard[®] hardscape is installed by an authorized contractor, it's warrantied for as long as you own your home. The warranty can also a transferable asset when you sell your home.

Visit Belgard.com/Warranty.

LONG TERM CARE **& MAINTENANCE**

GENERAL MAINTENANCE

- Clean pavers each spring with a coarse-bristle "stable" broom and paver cleaner.
- Apply granular weed preventative between joints.
- Be careful cleaning pavers with power washers. The force of the spray can mark the surface or compromise jointing sand.

CLEANING

- Always test a small, inconspicuous area first before applying any paver cleaning solution.
- Read and follow the directions printed on container labels for cleaning solution use, application, precautions and first aid. Always rinse the solution off thoroughly after use.
- In the event of an oil spill, act to remove promptly with granular oil absorbent. Spills should be soaked up, not rubbed.

PROTECTING

- When used in proper amounts, de-icing substances shouldn't damage pavers; however, Use in moderation.
- Apply up to two coats of sealer as directed on the label after your pavers are installed. Two years after installation, test to see if an additional application is needed.
- If the joints between paving stones appear to be chipping, the polymeric sand should be removed and replaced. Polymeric sand should be fully activated through the entire joint to cure properly and maximize hold.

they may accelerate surface wear on some styles.

Constants Techniseal®

Installers and homeowners everywhere trust the effectiveness and durability of Techniseal® products to keep their hardscapes as beautiful as they envisioned. From high-performing sand in a variety of colors to superior cleaning solutions and sealers, Techniseal offers solutions to maximize the life of concrete pavers.

LEADERS in OUTDOOR LIVING

Belgard is part of Oldcastle APG, a CRH Company, and North America's leading manufacturer of concrete building and hardscape products. Pavers, patio slabs, stone veneer, retaining walls, composite decking, dry mix concrete, fertilizers and mulches are but a few categories where Oldcastle APG leads the marketplace.

When you are designing your outdoor space, ask your contractor if our other Oldcastle brands make sense for your project.

OLDCASTLEAPG.COM
