MAKE YOUR STATEMENT WITH COLOR

You've defined the space and chosen a style—now let's pick colors that bring it all together. By guiding them through color choices, you can elevate curb appeal and create designs that complement their home's style.

Solid Shades

Offer a clean, cohesive look that simplifies design decisions. Solid shades provide a timeless foundation, making landscaping and décor stand out effortlessly.
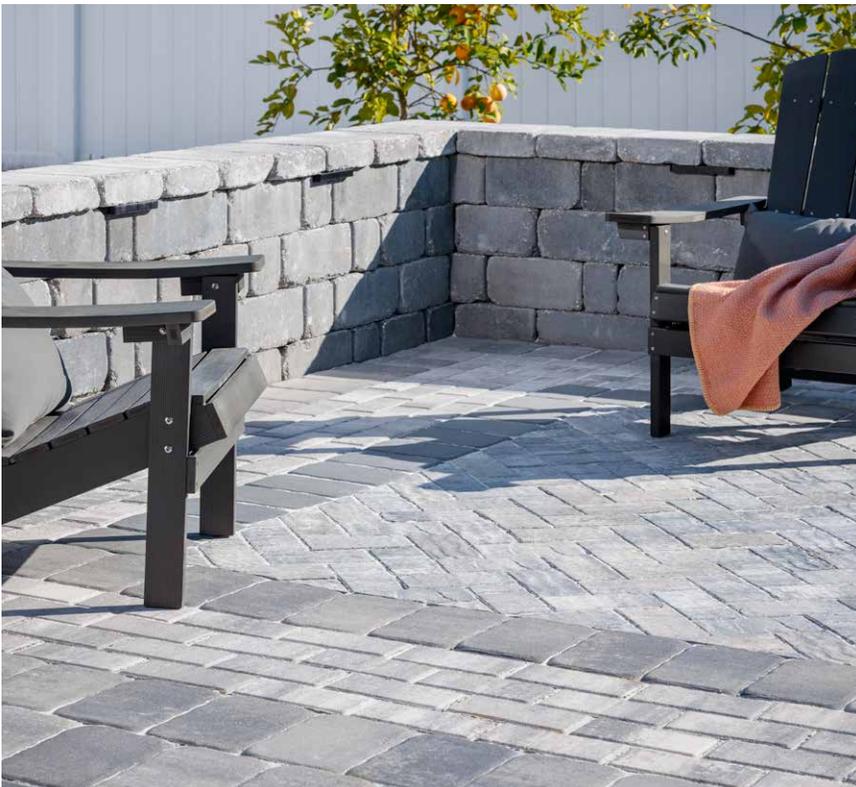

Monochromatic

Suggest a sleek, unified palette for homeowners who prefer understated elegance. Monochromatic designs highlight textures and patterns without overwhelming the space.

Contrasts

Encourage bold combinations for homeowners seeking visual interest. Contrasting colors define spaces, highlight features, and create a dynamic, eye-catching design.

Cool Blends

Introduce refreshing, modern tones that bring a sense of calm to outdoor spaces. Cool blends work well for contemporary styles, adding subtle sophistication homeowners will love.

Warm Tones

Warm tones create inviting, comfortable environments. They pair perfectly with natural elements and greenery, giving outdoor living areas a grounded, welcoming feel.
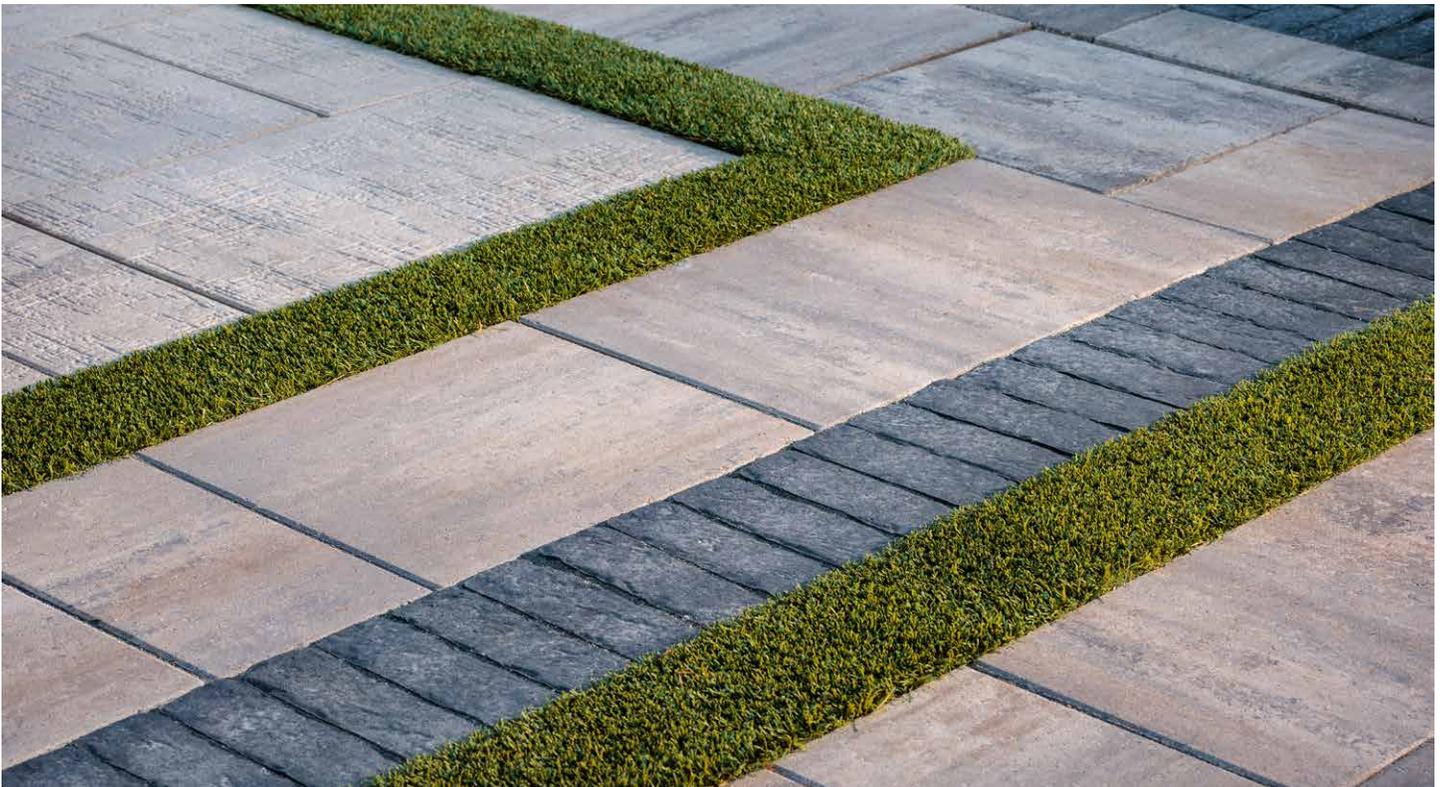

Mix & Match

Show how mixing colors and textures can personalize a space. This approach allows homeowners to create unique transitions between areas and express their individual style.

MODULAR SIZES.
ENDLESS PATTERNS.

Show homeowners how size and layout choices transform the look and feel of their space—and how **modular** systems make it easy to customize now and expand later.

Design Smarter:
Scale + Pattern That Sell

- **Size Sets the Tone:** Big slabs create a modern, open feel, smaller units add detail and intimacy.

- **Pattern Adds Personality:** Straight lines feel calm, angled layouts bring energy.

- **Infinite Possibilities:** Mix sizes and patterns for custom designs now—and easy expansion later.

WALLS THAT DEFINE SPACES

Walls do more than hold back soil—they shape how homeowners live outdoors. By creating boundaries, levels, and zones, walls turn ordinary yards into organized, functional, and inviting spaces.

Freestanding Walls

DEFINE ZONES. CREATE FLOW.

Carve out distinct areas for dining, lounging, or entertaining, turning open yards into organized, livable spaces.

Garden Walls

FRAME BEDS. POLISH LANDSCAPES.

Add structure to flower beds and planters for a clean, polished look that makes maintenance easier and landscaping more enjoyable.
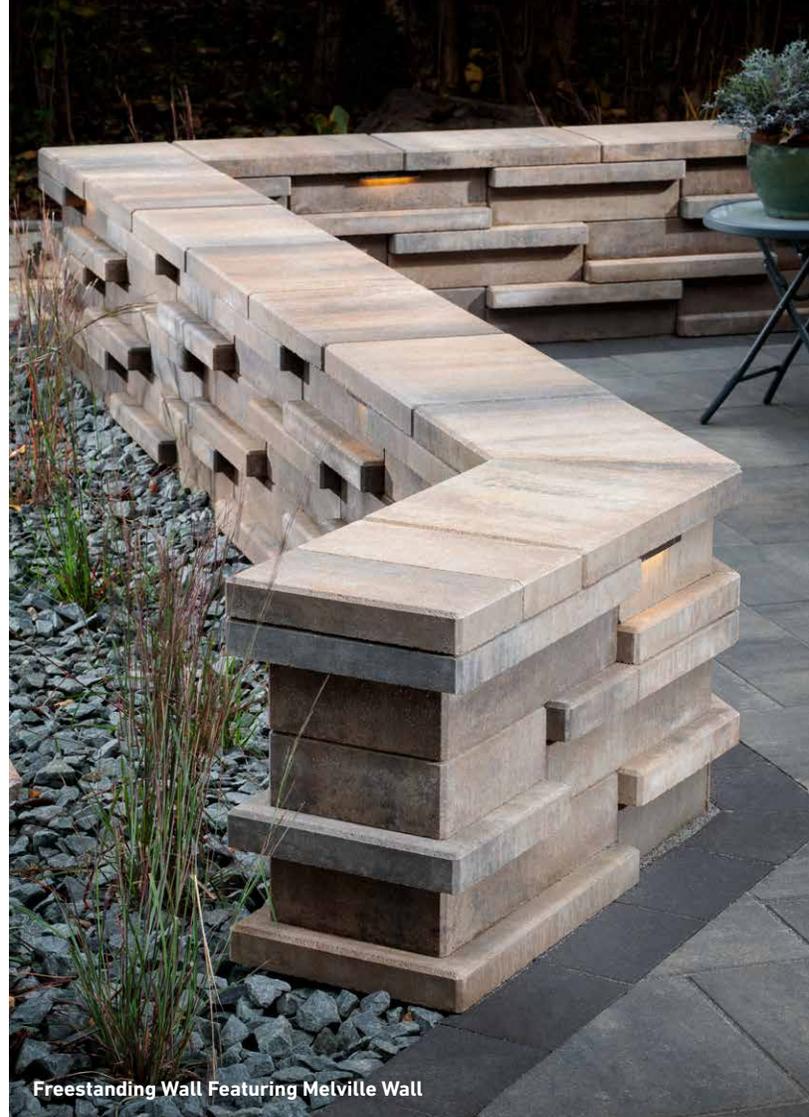

Freestanding Wall Featuring Melville Wall

Retaining Walls

TURN SLOPES INTO SPACES.

Transform steep grades into usable terraces for patios, gardens, or driveways, unlocking functional square footage.

Tiered Walls

LAYERED DESIGN. MAXIMUM USE.

Add depth, dimension and versatility with multilevel spaces that include plantings, seating and transitions.

Plan with Purpose

Before choosing a wall product, consider what it needs to do—hold back soil, create levels, or simply add style. Function determines the right design.
