# DESIGNS FOR EVERY BUDGET

Help homeowners choose the right outdoor design by uncovering priorities before showing products. Use these prompts to guide the discussion and simplify their decision-making.

## Entertainment-Ready Retreat

### BEST FOR:

Big gatherings, outdoor cooking

### ASK:

- Which feature is most important—fireplace, kitchen, or seating?
- Phase upgrades or build all at once?

### Pro Tip

Position yourself as a long-term partner, not just a one-time installer. Offer seasonal maintenance and upgrade packages.

## Dinner-Party Perfect

### BEST FOR:

Flexible dining + lounge

### ASK:

- Expandable layout or fixed?
- Separate dining or blended space?

## The Simple Life

### BEST FOR:

Budget-friendly, low maintenance

### ASK:

- Speed or customization?
- Keep it simple or allow for growth?

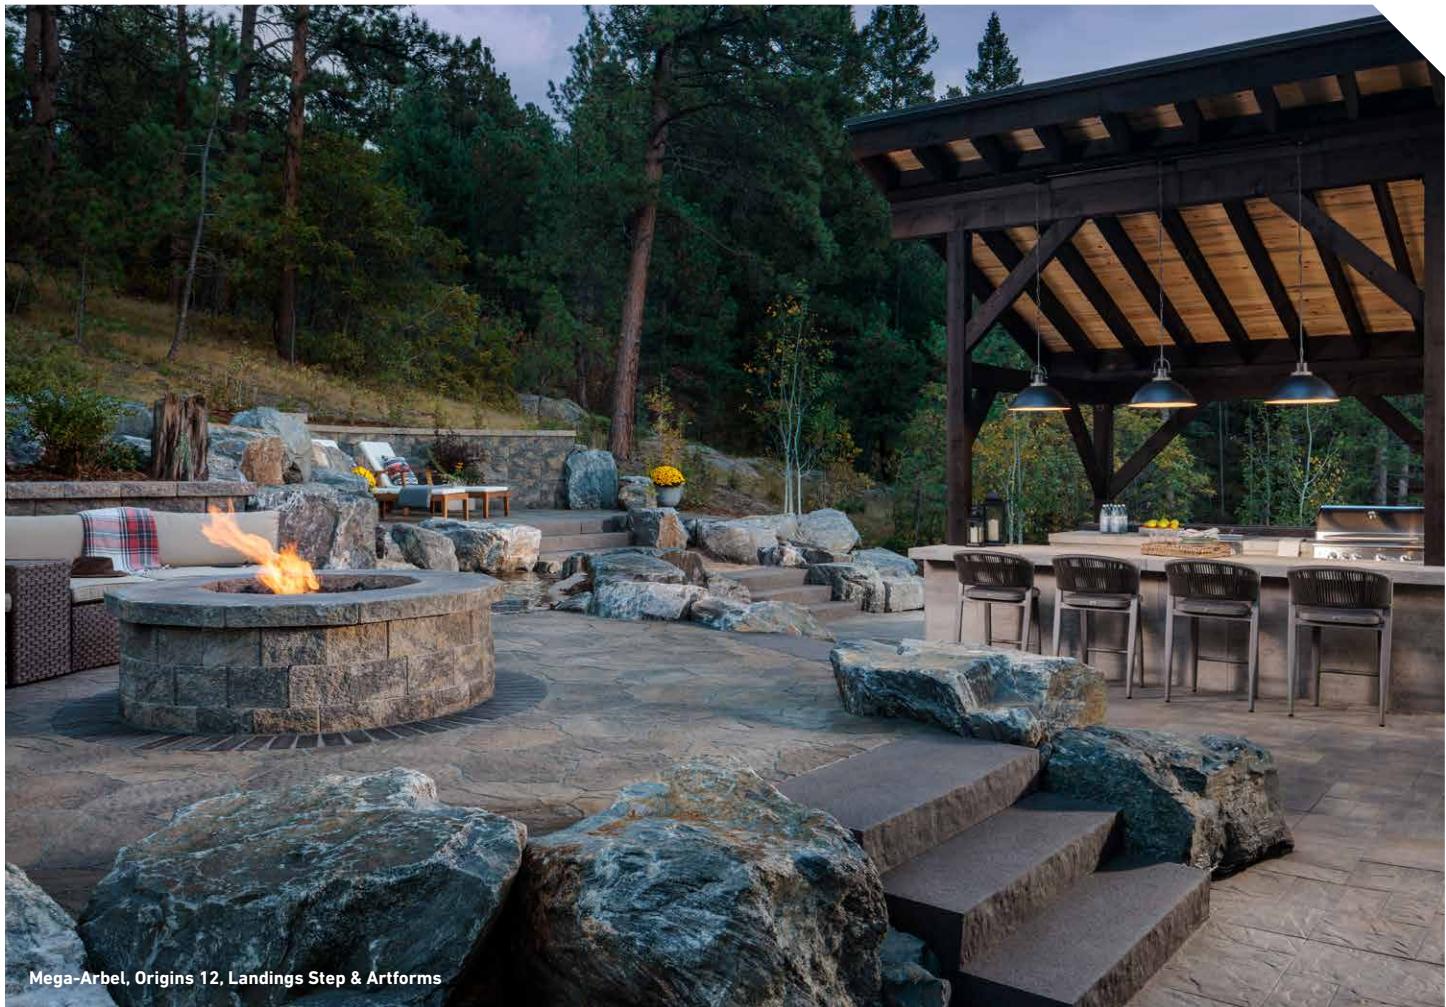

### Pro Tip

Modular pavers save time on design and installation, and make expansions simpler.

THE ART OF DESIGN

# MAKE YOUR STATEMENT WITH COLOR

You've defined the space and chosen a style—now let's pick colors that bring it all together. By guiding them through color choices, you can elevate curb appeal and create designs that complement their home's style.

## Solid Shades

Offer a clean, cohesive look that simplifies design decisions. Solid shades provide a timeless foundation, making landscaping and décor stand out effortlessly.

## Monochromatic

Suggest a sleek, unified palette for homeowners who prefer understated elegance. Monochromatic designs highlight textures and patterns without overwhelming the space.

## Contrasts

Encourage bold combinations for homeowners seeking visual interest. Contrasting colors define spaces, highlight features, and create a dynamic, eye-catching design.

## Cool Blends

Introduce refreshing, modern tones that bring a sense of calm to outdoor spaces. Cool blends work well for contemporary styles, adding subtle sophistication homeowners will love.

## Warm Tones

Warm tones create inviting, comfortable environments. They pair perfectly with natural elements and greenery, giving outdoor living areas a grounded, welcoming feel.

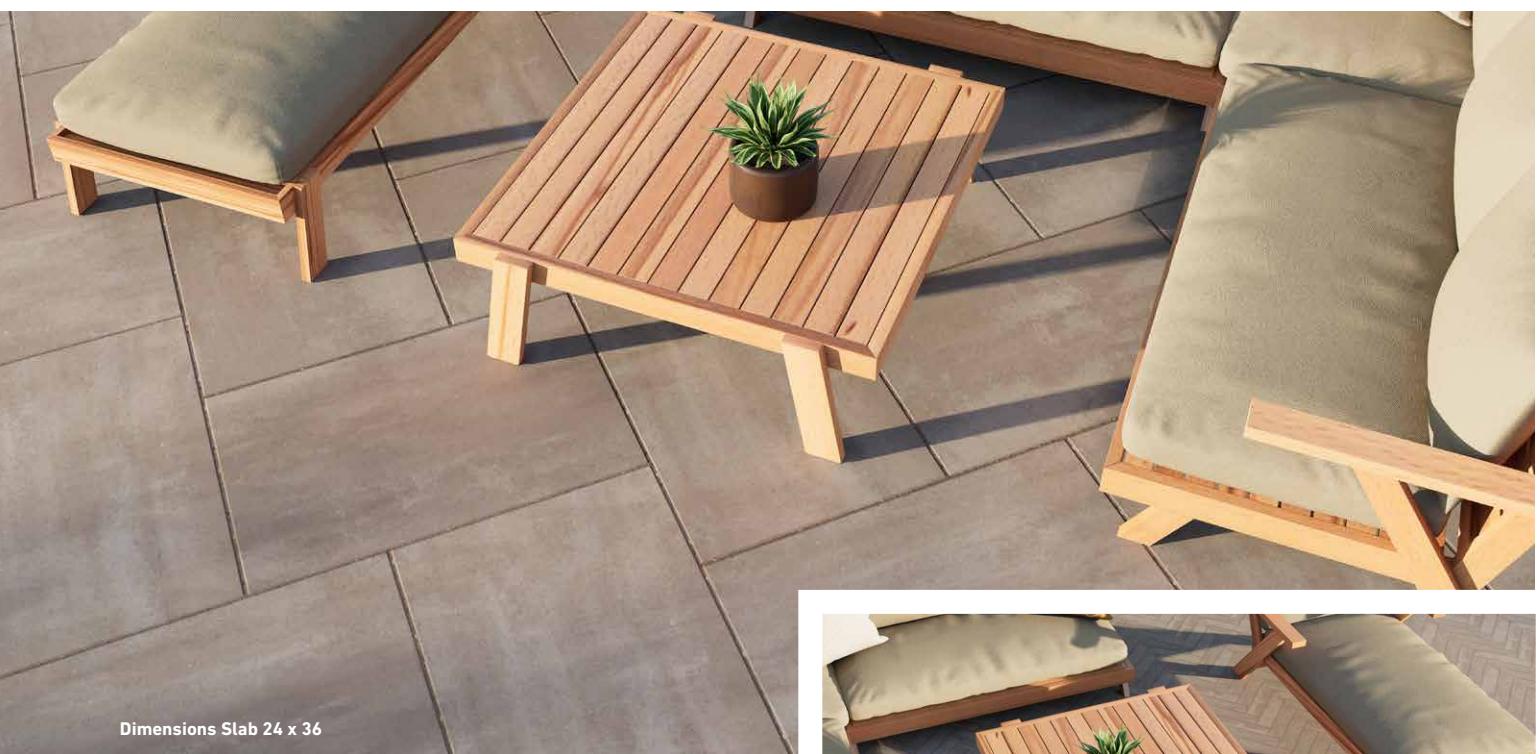

## Mix & Match

Show how mixing colors and textures can personalize a space. This approach allows homeowners to create unique transitions between areas and express their individual style.

UNLOCKING FLEXIBILITY & FLOW

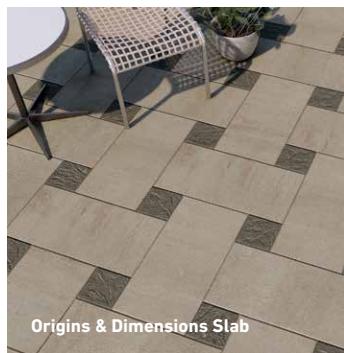

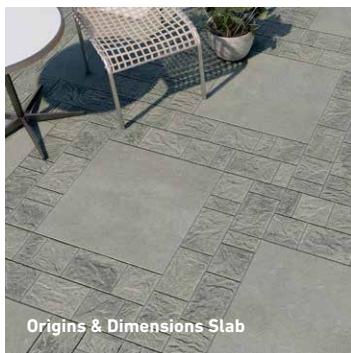

# MODULAR SIZES. ENDLESS PATTERNS.

Show homeowners how size and layout choices transform the look and feel of their space—and how **modular** systems make it easy to customize now and expand later.

## Design Smarter: Scale + Pattern That Sell

- **Size Sets the Tone:** Big slabs create a modern, open feel, smaller units add detail and intimacy.
- **Pattern Adds Personality:** Straight lines feel calm, angled layouts bring energy.
- **Infinite Possibilities:** Mix sizes and patterns for custom designs now—and easy expansion later.

DESIGN YOU CAN FEEL

# THE POWER OF TEXTURE

Texture is one of the most powerful tools in hardscape design, adding both personality and traction underfoot. Mix textures to balance interest, play with light and shadow, and create spaces that are both safe and inviting.

Belair Wall 2.0 with Marina Coping, Dimensions Paver & Origins 18

## Layer in Vertical Texture

Consider pairing complementary textures across pavers and walls for a cohesive look, or contrast finishes to create visual depth and distinction between horizontal and vertical surfaces.

## STRUCTURE & STYLE

# WALLS THAT DEFINE SPACES

Walls do more than hold back soil—they shape how homeowners live outdoors. By creating boundaries, levels, and zones, walls turn ordinary yards into organized, functional, and inviting spaces.

## Freestanding Walls

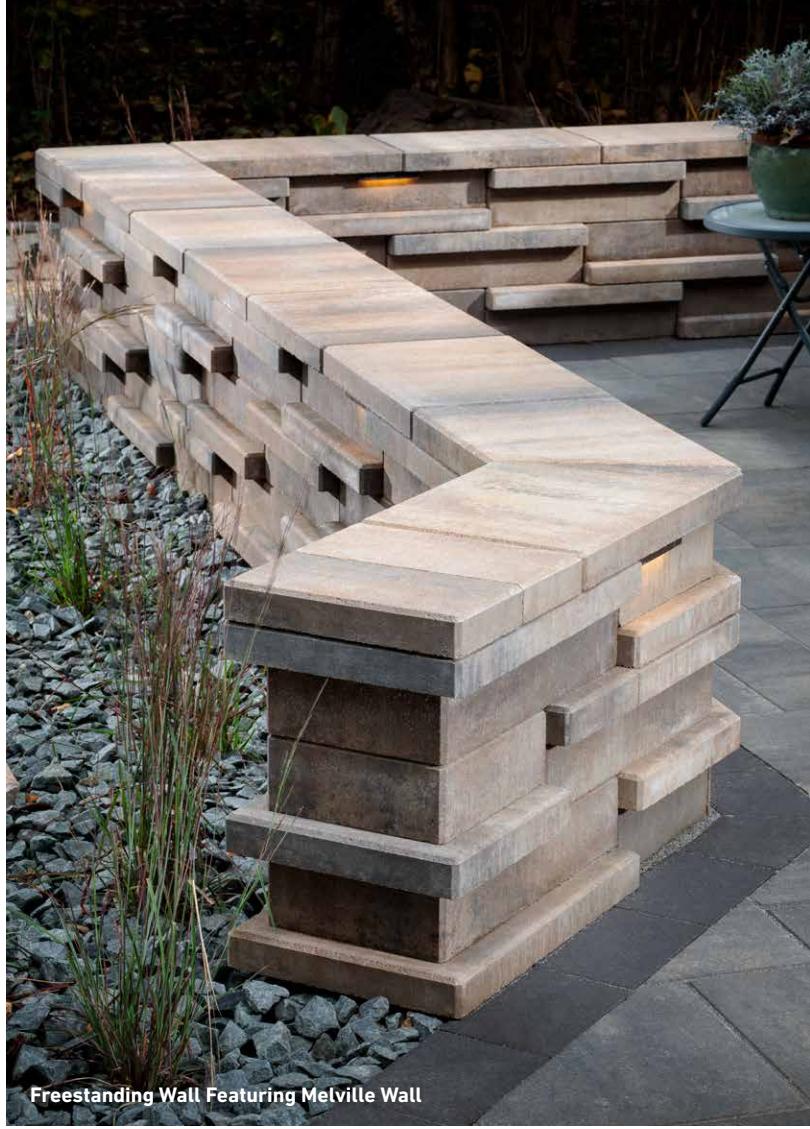

### DEFINE ZONES. CREATE FLOW.

Carve out distinct areas for dining, lounging, or entertaining, turning open yards into organized, livable spaces.

## Garden Walls

### FRAME BEDS. POLISH LANDSCAPES.

Add structure to flower beds and planters for a clean, polished look that makes maintenance easier and landscaping more enjoyable.

Freestanding Wall Featuring Melville Wall

Freestanding / Retaining Wall Combo  
Featuring Ashlar Tandem

## Retaining Walls

### TURN SLOPES INTO SPACES.

Transform steep grades into usable terraces for patios, gardens, or driveways, unlocking functional square footage.

## Tiered Walls

### LAYERED DESIGN. MAXIMUM USE.

Add depth, dimension and versatility with multilevel spaces that include plantings, seating and transitions.

## Plan with Purpose

Before choosing a wall product, consider what it needs to do—hold back soil, create levels, or simply add style. Function determines the right design.

Tiered Retaining Wall Featuring Diamond Pro Air

## Smart Strength for Every Landscape

### DIAMOND PRO® AIR

Engineered for performance and designed for elegance, Diamond Pro Air walls offer multiple textures and colors to fit any style. Lightweight, easy-to-handle blocks speed up installation, saving time and labor, and maximize usable space without compromising durability.

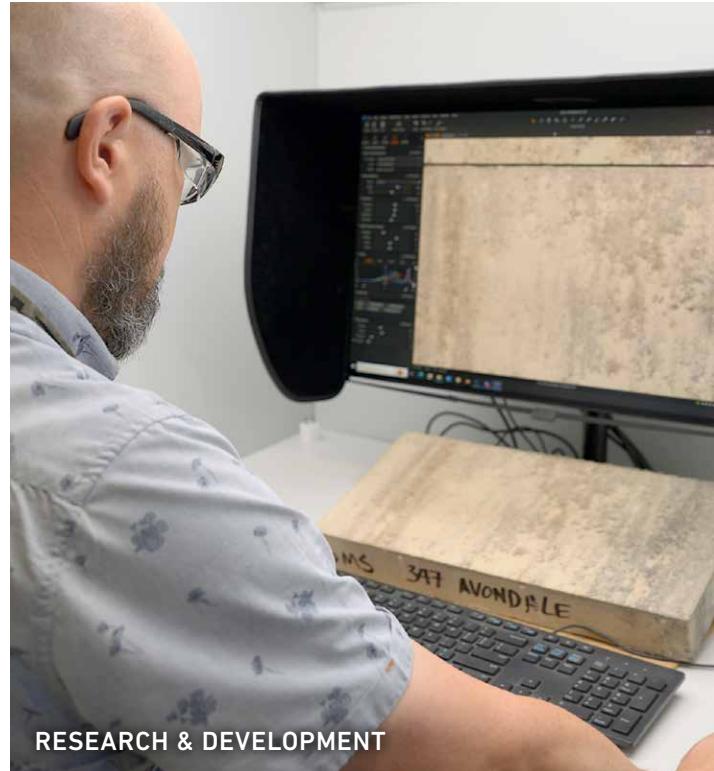

Retaining walls over 4 feet in height should be designed by a qualified engineer.

### TECHNICAL Specs

- Incredibly high breakage loads, up to 3,000 pounds
- Can be cleaned with normal household cleaners and even pressure washed with a low pressure washing device.\*
- High-density structure and ultra-low absorption rate provide a tight surface texture that fends off surface mold, moss, dirt and stains
- Unaffected by alkalis, acids, chemical agents, salt and other de-icing materials
- Structured top textures create non-slip surfaces
- Freeze-thaw resistant—100% frost-free and properties remain unaltered at temperatures ranging from -51.1° to + 60° C (-60°F to +140°F)
- Can be installed on a pedestal system for plaza and rooftop installations
- Suitable for ADA-compliant installations

\* It is important that all pressure washing of your porcelain pavers be done with a low pressure washer with a maximum of 1600 psi and nothing more powerful. When pressure washing your installation, care should be taken to prevent damage to the grout (adhesive and grout installations) and some re-sanding will be necessary when power washing an installation with sand or polymeric sand joints.

Due to the natural materials in our products, colors may vary from those shown on the cut sheet. We recommend viewing actual product samples to ensure the perfect color and finish for each project.

OLDCASTLE

A photograph of three construction workers in a wooded area. They are laying pavers on a gravel base. One worker in the foreground is wearing a blue shirt and tan pants, leaning over a paver. Another worker in the middle ground is wearing a grey long-sleeve shirt, blue jeans, and a grey baseball cap, looking down at the work. A third worker is partially visible on the left. Stacks of pavers and tools are scattered around the work site. The background is a dense green forest.
