

**NOTES:**

AutoCAD® hatch pattern files can be downloaded from belgard.com for use in architectural drawings

Some patterns may not necessarily reflect the percentages of stone sizes within a particular pallet. In some cases you may have extras in one or more of the sizes. This must be accounted for in your planning and design.

Percentages are based on area by paver.

100% Variable X 2<sup>3</sup>/<sub>8</sub>

**Installation Guidelines**

- 1) Start by marking out circles on the surface to be paved.
- 2) Determine the dimensions of each concentric circle, as well as the layout details.
- 3) Always lay pavers starting from the center.
- 4) For a semicircle or quarter circle, follow the same laying order.

Half Circle

Quarter Round

← 2 circles at 6.5 ft. →

← 1 circle at 9 ft. →
