OUTDOOR LIVING®

SolarGuard®

For fencing and railing.
A material composition that provides fade resistance* so that your outdoor living products will look good for years to come.
Does not apply to white vinyl products

FENCING

StayStraight®

A unique material composition within vinyl fence rails that provides structural durability helping to decrease bending or sagging over time.
Does not apply to all products.

StaySquare®

Patented gate design with internal gate pockets, provides structural integrity that decreases sagging and bending over the years.

NoVis™

A hidden fastener system that locks fence panels together from the inside out to provide a clean design.

T-Slot™

A patented system that means no unsightly bolts on our aluminum gates with a flush mount hinge, for easy installation and a clean finished look.

RAILING

Composicore®

Contains no wood fibers, making it water resistant meaning it will not rot, splinter, warp or stain and is resistant to mold

ProLock®

A locking strip that secures railings by connecting them from the inside out to provide a clean design.

ClickConnect™

A patented connecting system that locks vinyl infill boards tightly together to create a railing panel that meets code compliance.

OneTen™

A tensioning control system eliminates the need to tension each cable individually and decreases the need for seasonal adjustments.

VISION®

It's time to step up to the future of composite decking. Our strongest capped wood composite board is protected with our exclusive DiamondDefense Coating to exude distinctive style while resisting scratches, stains and damage on impact. Choose from beautiful color options and textures that reflect the look of real hardwood while ensuring unmatched performance features designed to last a lifetime.
