# ADD YOUR OWN TWIST

Belgard's square and rectangular pavers form the foundation for traditional driveways, patios, and walkways. If you're looking to add scale and unique designs, try using geometric shapes to create curves and dimension for either a subtle accent or a dramatic look.

# PERMEABLE PAVERS

Our selection of permeable pavers combines strength, functionality & aesthetics to provide an alternative solution for stormwater management in a variety of applications.

#### WATER HARVESTING

Reduce water demand for landscaping by designing a permeable paver system that harvests and recycles rainwater.

### **REPLENISH AQUIFERS**

Permeable pavers filter water, removing contaminants and ensuring receiving waters and ecosystems are self-sustaining.

#### MANAGE RUNOFF

Aid landscaping by reducing erosion that occurs when grass is dry or dead.

### FLOOD PREVENTION

Permeable pavers can absorb rainwater at a rate of over 500 inches per hour, eliminating runoff.

Construction projects rarely proceed exactly as initially designed and quoted. Unforeseen complications and decisions during construction can affect costs, which vary based on site conditions, project size, finishes, and more. Pavers and wall products may only account for 20% of the total cost. Choose products you'll enjoy long-term without compromising.

Elements<sup>™</sup> Pergolas and Decorative Screen Panels are the ideal way to customize your space with added shade, privacy or decorative accents. With a variety of biophilic or architectural patterns to choose from, create a unique look that enhances your personal sense of style.

Decorative Screen Panels can be incorporated throughout your backyard to tie the design together. In addition to Pergola accents and stand-alone kits, incorporate panels into selected vinyl fencing styles, as a vinyl or aluminum railing infill option, or as an alternative to under-deck lattice.
