WOOD FINISH

TWO UNIQUE STYLES FOR VERSATILITY AND MODERN ELEGANCE

☑ FEATURES & BENEFITS

- Offered in two styles: Raw-cut Style with a distinctive texture and Finished Style with enhanced natural wood tones. Combine both styles for a unique, synergetic look
- Large-scale, thick rectangular planks offer exceptional durability
- Ideal for patios, pool surrounds and high-traffic areas
- High density and ultra-low absorption rate creates a tight non-slip surface texture and fends off surface mold, moss, dirt and other types of stains
- Unaffected by alkalis, acids, chemical agents, salt and other de-icing materials
- Can be cleaned with normal household cleaners and even pressure washed with a low pressure washing device*
- Freeze thaw resistant—100% frost-free and properties remain unaltered at temperatures ranging from -51.1o to + 60o C (-60°F to +140°F)

** It is important that all pressure washing of your porcelain pavers be done with a low pressure washer with a maximum of 1600 psi and nothing more powerful. When pressure washing your installation, care should be taken to prevent damage to the grout (adhesive and grout installations) and some re-sanding will be necessary when power washing an installation with sand or polymeric sand joints.*
