TECHNICAL SPECS

- Ideal for retaining walls, steps and columns
- Can be installed as a gravity wall or geogrid-reinforced wall
- Weighing only 54 lbs., this 1 square foot block maximizes installation and shipping efficiencies
- Front lug design produces a 9/16" per unit setback for a 4° system batter
- Cores align for easy filling
- Built-in handholds for easy handling
- Top course is placed upside down to increase capping efficiency
- Near-vertical geogrid-reinforced retaining walls up to 12 feet tall
- Gravity walls up to 3' 4" high*, including the buried course
- Minimum outside radius, measured on the top course to the front of the units: 4 feet
- Minimum inside radius, measured on the base course to the front of the units: 6 feet

*Gravity wall heights are based on project specific conditions and may be lower than this value.

QUALITY FOR LIFE

Every step of our manufacturing process incorporates rigorous research, testing and quality assurance. We demand the highest quality from each of our facilities across North America. We believe in creating world class building products that stand the test of time. See our lifetime warranty at [Belgard.com/Warranty](https://www.belgard.com/Warranty)

Due to the natural materials in our products, colors may vary from those shown on the cut sheet. We recommend viewing actual product samples to ensure the perfect color and finish for each project.
